

Scientific Program

25 Oct 2024 - Day 1

Friday

13:00 - 14:00 Registration

13:45 - 14:00 Opening Remarks

14:00 - 14:30 Session 1: Updates on Acromio-clavicular joint instability

Moderators: Rachel Frank & Hatem Galal

14:00 - 14:10 Vertical and horizontal acromio-clavicular stabilization is a must for good results **Thibault Lafosse**

14:10 - 14:20 Complications of ACJ stabilizations and how to avoid them **Surena Namdari**

14:20 - 14:30 Chronic symptomatic ACJ dislocations - how i treat them and what do i expect **Guiseppe Milano**

14:30 - 15:15 Live Surgery Case 1 from Toulouse - France (Arthroscopic Latarjet) **Jean Kany**

14:00 - 14:30 Session 2: Updates on Anterior Shoulder Instability

Moderators: Surena Namdeari & Sami Roukoz

15:15 - 15:25 What is the literature telling us about first time dislocators? **Rachel Frank**

15:25 - 15:35 Labral repair with remplissage - when and how **Nuno Gomes**

15:35 - 15:45 Can we really trust All Suture anchors in anterior shoulder labral stabilization **Guiseppe Milano**

15:45 - 15:55 The open Latarjet revisited **Philippe Landreau**

15:55 - 16:05 Making the arthroscopic Latarjet simpler and more reproducible - the "flipped" subscapularis sparing Latarjet **Patric Raiss**

16:05 - 16:15 Arthroscopic bone block is the future! **Ziyad El Qirem**

16:15 - 16:25 Arthroscopic Latarjet is definitely better but is it cost effective? **Surena Namdari**

16:25 - 16:30 Question & Answer

16:30 - 16:45 Coffee Break

16:45 - 17:30 Session 3: Anterior shoulder instability cases - Case presentations

Moderator: Guiseppo Milano & Samer Hassan

Panel: Saeed Al Thani & Surena Namdari & Nuno Gomes & Thibeau Lafosse

17:30 - 18:20 Session 4: Updates on posterior shoulder instability

Moderators: Patric Raiss & Nuno Gomes

17:30 - 17:40 Key to success for posterior shoulder stabilization **Rachel Frank**

17:40 - 17:50 How I do Posterior labral repair **Ali Al Suwaidi**

17:50 - 18:00 Locked posterior shoulder dislocation **Nady Hamid**

18:00 - 18:10 Posterior glenoid bone block **Laurent Lafosse**

18:10 - 18:20 Question & Answer

18:20 - 18:40 Keynote Lecture 1 **Laurent Lafosse**

How treatment of anterior shoulder instability changed in the last 10 years - Where I think it's going in the future?

18:40 End of Day 1

Updated as on June 02, 2024

Scientific Program

26 Oct 2024 - Day 2

Saturday

07:30 - 08:00 Registration

08:00 - 09:10 **Session 5: Updates on superior rotator cuff tears**

Moderator: Ziyad El Qirem & Richard Friedman

08:00 - 08:10 Will the tendon heal? **Fawaz Al Fahad**

08:10 - 08:20 Do we still need to do an acromioplasty with the rotator cuff repair? **Usama Saleh**

08:20 - 08:30 Single row-Double row, what is the updates in 2024 ? **Samer Hassan**

08:30 - 08:40 ACJ - Biceps management in cuff repair **Rachel Frank**

08:40 - 08:50 Biological augmentation of rotator cuff tears **Guisepppe Milano**

08:50 - 09:00 Regional economical issues - is it affecting our surgical techniques and results? **Hatem Galal**

09:00 - 09:10 Question & Answer

09:10 - 09:30 **Keynote Lecture 2** **Scott Sigman**

Moderator: TBC

Pain management after arthroscopic shoulder surgery

09:30 - 10:10 **Session 6: Updates on Subscapularis tears**

Moderators: George Athwal & Usama Saleh

09:30 - 09:40 I always repair them in the box **Raid Abutalib**

09:40 - 09:50 I prefer repairing out of the box **Laurent Lafosse**

09:50 - 10:00 What do I do if the subscapularis is irreparable? **Richard Friedman**

10:00 - 10:10 Question & Answer

10:10 - 10:30 **Coffee Break**

10:30 - 11:30 **Session 7: Rotator cuff repair cases - Case presentations** **Hasan Baydoun & Samer Hassan**

Panel: Ali Al Suwaidi - Saad AlQahtani - Olivier Verbogt - Patric Raiss

11:30 - 12:30 **Live Surgery Case 2 - Rotator cuff repair** **TBD**

12:30 - 13:15 **Industry Symposium 1**

13:15 - 14:00 **Lunch Break**

14:00 - 15:00 **Session 8: Massive Irreparable Cuff Options**

Moderators: Sabrey Mahjob & Surena Namdari

14:00 - 14:10 Can we predict re-tear rate? **George Athwal**

14:10 - 14:20 Partial repair with biceps augmentation **Nuno Gomes**

14:20 - 14:30 Does the Balloon reduce re-tear rate? **Thibault Lafosse**

14:30 - 14:40 Patch augmentation is the way to go **Scott Sigman**

14:40 - 14:50 I can repair any retracted tear by advancing the muscle **Ashish Gupta**

14:50 - 15:00 Latissimus dorsi or lower trapezius - which works better? **Philippe Valenti**

15:10 - 16:00 **Session 9: Fast - fire short videos (Arthroscopy)**

Moderators: TBC

15:00 - 15:10 Medium size tear double row **Samer Hassan**

15:10 - 15:20 Medium size tear single row **Hasan Baydoun**

15:20 - 15:30 Release of a massive retracted tear **Scott Sigman**

15:30 - 15:40 Repair of a Subscapularis retracted tear **Philippe Valenti**

15:40 - 15:50 suprascaular nerve release in a massive retracted tear **Rachel Frank**

15:50 - 16:00 Question & Answer

16:00 - 16:15 **Coffee Break**

16:15 - 17:00 **Keynote Lecture 3** **Bassem Elhassan**

Scapulo-thoracic Abnormal Motion - Classification, Examination & treatment

17:00 - 18:00 **Session 10: Arab Shoulder & Elbow Society free talks**

Moderators: TBC

17:00 - 17:10 **Waleed Reda**

17:10 - 17:20 **Sami Roukoz**

17:20 - 17:30 **Khalid Alkhelaifi**

17:30 - 17:40 **Saeed Al Thani**

17:40 - 17:50 **Saad AlQahtani**

17:50 - 18:00 Question & Answer

18:00 **End of Day 2**

Updated as on June 02, 2024

Scientific Program

27 Oct 2024 - Day 2

Sunday

07:30 - 08:00 Registration

08:00 - 09:00 Session 11: Updates on anatomic shoulder replacement

Moderators: Samer Hassan & Thibault Lafosse

08:00 - 08:10 Why I abandoned the subscapularis sparing total shoulder replacement Laurent Lafosse

08:10 - 08:20 Why I prefer stemless humeral implants Patric Raiss

08:20 - 08:30 I think short stems are better Howard Routman

08:30 - 08:40 Inlay glenoid components - advantages Nady Hamid

08:40 - 08:50 Will Augmented glenoid polyethylene components save the total shoulder arthroplasty from going extinct ? George Athwal

08:50 - 09:00 Question & Answer

09:00 - 10:00 Session 12: Updates on reverse shoulder replacement

Moderators: Nady Hamid & Mohamed Morsey

09:00 - 09:10 What is the ideal RSA configuration ? Sabri Mahjoub

09:10 - 09:20 RSA angle: importance and methods of correction Surena Namdari

09:20 - 09:30 Everyone agrees on inclination but how about retroversion - does it really matter ? Richard Friedman

09:30 - 09:40 How much should we distalize or lateralize ? Samer Hassan

09:40 - 09:50 Bone or metal glenoid lateralization ? Thibault Lafosse

09:50 - 10:00 Question & Answer

10:10 - 10:15 Coffee Break

10:15 - 10:35 Keynote Lecture 3

Surena Namdari

Latest literature to decrease infection in shoulder arthroplasty

10:35 - 11:10 Session 13: Complications in shoulder arthroplasty

10:35 - 10:45 Obesity and shoulder arthroplasty Richard Friedman

10:45 - 10:55 Treatment of the unstable reverse shoulder replacement George Athwal

10:55 - 11:05 Who will get an acromial stress fracture? Howard Routman

11:05 - 11:10 Question & Answer

11:10 - 11:30 Keynote Lecture 4

Philippe Valenti

Neurological complications in shoulder surgery

11:30 - 12:30 Live Surgery Case 3 - Shoulder replacement

TBD

12:30 - 13:15 Industry Symposium 2

13:15 - 14:00 Lunch Break

14:00 - 15:00 Session 14: Planning in shoulder replacement

Moderator: Ali Maqdes & Lauren Lafosse

14:00 - 14:10 The principles of planning in shoulder arthroplasty Adeeba Albadran

14:10 - 14:15 Ideal implantation "Golden rules" Ali Maqdes

14:15 - 14:20 Case presentation Ali Maqdes

14:20 - 14:25 How I plan this case (ZB) Olivier Verbogt

14:25 - 14:30 How I plan this case (Exactech) Howard Routman

14:30 - 14:35 How I plan this case (Arthrex) Patric Raiss

14:35 - 14:40 How I plan this case (Stryker) George Athwal

14:40 - 14:45 How I plan this case (FH Orthopedics) Philippe Valenti

14:45 - 14:50 How I plan this case (DJO) Surena Namdari

14:50 - 14:55 How I plan this case (Akunah) Ashish Gupta

14:55 - 15:00 Question & Answer

15:00 - 16:00 Session 15: Executing the plan

Moderators: Ashish Gupta & Richard Friedman

15:00 - 15:10 I prefer PSI Nuno Gomes

15:10 - 15:20 I only use navigation Howard Routman

15:20 - 15:30 I rely on the re-usable guide Patric Raiss

15:30 - 15:40 Augmented reality is the way to go George Athwal

15:40 - 15:50 I think the robot will rule the world Olivier Verbogt

15:50 - 16:00 Question & Answer

16:00 - 16:20 Coffee Break

16:20 - 16:40 Keynote lecture 5: Social media influence on my practice

16:40 - 17:30 Session 16: Fast-fire short videos (Arthroplasty)

Moderators: Saeed Al Thani & Patric Raiss

16:40 - 16:50 Glenoid exposure made easy George Athwal

16:50 - 17:00 Subscapularis peeling Philippe Valenti

17:00 - 17:10 Tuberosity management in reverse for fracture Sabri Mahjoub

17:10 - 17:20 Asymmetric glenoid reaming with metal augmentation Ali Maqdes

17:20 - 17:30 Question & Answer

17:30 - 18:00 Closing Ceremony

18:00 End of Day 3

Updated as on June 02, 2024
